Aloha Saint Louis School Parents and Guardians,

Don’t forget to tell all your friends about our performances of “Guys and Dolls” at Mamiya Theater for the next two weeks. Please visit http://www.saintlouishawaii.org/apps/news/article/538422 for more details. We highly encourage you to see the play. It’s truly amazing [click here for a sneak peek](http://www.saintlouishawaii.org/apps/news/article/538422)!

In addition to this, the E. L. Wiegand Robotics Engineering Center at Saint Louis School is now open and our students simply love building robots in there. Finally, enjoy pictures of our students learning in various ways here on our campus. Whether it’s music, technology, acting and more, we are blessed to have the facilities needed to provide those opportunities to Crusaders.

Memor et Fidelis,

Dr. Glenn Medeiros
Saint Louis School
Head of School

*Here our very own teacher stars along with many of our students in Guys and Dolls!*
Our many retreat programs help to remind our students about what is most important in their lives.

Students pay their respect as they enter the Mystical Rose Oratory.
In this picture, our students share their love for music and dance in Mamiya Theater with a very special guest musician.

Project-Based learning allows boys to use their high-order thinking skills.
In this picture, we see our students actively learning in the classroom and that is vital for boys!

Two of our students greeted alumni, donors, and more at our Drama Gala!
In this picture, our Japanese language students are leaving on a field trip to meet with international students.

Here our students build the table they will be using in our new E. L. Wiegand Robotics & Engineering Center.

Here a sophomore utilizes our new STEM equipment worth over $200,000!

Our Civil Air Patrol continues to grow in its first year in existence at Saint Louis School.
The E. L. Wiegand Robotics & Engineering Center at Saint Louis School is officially open and we look forward to being a leader in STEM education in Hawaii for years to come with this home for our Saint Louis School robotics program.
