Aloha Saint Louis School Parents and Guardians,

Tomorrow will be the first day in Saint Louis School’s 170 year existence that Kindergarten to 12th grade will be reporting to school together. Beyond the introduction of new grade levels this school year, renovations to Newell Hall’s first floor and our locker room will provide students with highly upgraded facilities. There is more work to be done in this regard as we strive to give your sons the best learning environment possible. It is your financial support of the Saint Louis School that makes that vision become a reality and we thank you for your generosity.

Last week, grades Kindergarten to 8 reported to school. During that time, we experimented with various pick up and drop off procedures knowing that we will have approximately 200 more students attending Saint Louis School this school year. We will be prepared for over 800 students to attend school tomorrow; however, please know that traffic will be heavy during drop off and pick up time as our families become more familiar with traffic patterns, etc. With the implementation of small adjustments in the first couple of days by our faculty and staff, traffic should normalize on campus. Your patience in this matter is appreciated.

As a friendly reminder, also remember to review our K-5 and 6-12 student/parent handbooks on Edline. There you will see updated policies in relation to tuition payments, participation in extra-curricular activities, and more. You will also find a map outlining where new locations are for our Health Room (3rd floor of the Clarence T.C. Ching Learning and Technology Center), Resource Center (former library), and Business Center (former 6-12 Main Office on the 2nd floor of Bertram Hall). The Resource Center on the 3rd floor of Bertram Hall will function as the main office for grades 6-12. The elementary school has its own Main Office in Newell Hall.

For those of you who are new to Saint Louis School, this Head of School newsletter goes out at least twice per month with the goal of bringing you an inside look as to what is happening around campus as we teach your sons the characteristics of a Marianist education. Below are a few pictures taken in the last two weeks as we prepared for the start of school. Please view the pictures below and enjoy!

Memor et Fidelis,

Glenn Medeiros, Ed.D.
Saint Louis School
Head of School
Lower School Principal, Christopher Casupang ‘87 addressing our middle school students last week.

High School Principal, Robbie Murakami ‘84 welcomes our elementary school students.
Campus Minister Father Allen shares with parents what it means to be a part of the Marianist family.

High school students spend their last evening together with students from our sister school in Japan.
At our faculty and staff retreat, teachers take part in a very special activity called “The Marianist Table” while others explain the symbolism behind each item that is presented.

6-12 grade teachers welcomed our K-8 students who were dropped off to school.
One of our teachers took this picture of me and a new kindergarten student on his first day of school. Upon entering the first floor of Newell Hall (Science Hall) he immediately ran with excitement to the multi-purpose room in our elementary school. For a moment, I was able to celebrate with him the joy he was feeling to be a part of this exciting moment in our history. Thanks to graduates like Michael Yee, Dwight Otani, Anthony Guerrero, Kevin Kong Chee, the Class of 1966 and many others, our little Crusaders like this one will be given the opportunity to experience a Marianist education as they grow from boys to eventually become Saint Louis men.
